PROFESSIONAL SUMMARY

Analytical and detail-oriented SQL Developer & Business Analyst with 3+ years of IT experience in data analysis, reporting, and process optimization. Skilled in SQL Server, ETL workflows, and KPI development — bridging business requirements with technical execution. Proven track record of delivering insights that enhance decision-making, optimize performance, and support strategic initiatives.

TECHNICAL SKILLS

- **Databases:** Microsoft SQL Server (T-SQL, stored procedures, performance tuning)
- **ETL & Data Tools:** SSIS, Excel Dashboards, Data Modeling, Power BI (basic)
- **Version Control & Tools:** GitHub, Jira, Postman, SSMS
- **Methodologies:** Agile · SDLC · Root Cause Analysis

KEY COMPETENCIES

- Requirement Gathering · BRD / FRD Documentation
- Stakeholder Communication · Agile Collaboration
- Data Analysis · KPI & Dashboard Design
- ETL Pipelines · Query Optimization

PROFESSIONAL EXPERIENCE

Motilal Oswal Financial Services Limited — SQL Developer

Dec 2022 – Present

- Designed optimized SQL queries, stored procedures, and reporting views for financial data analytics.
- Automated ETL workflows and reconciliation checks, improving data accuracy and report delivery time.
- Collaborated with business users to translate complex functional requirements into SQL-driven insights.
- Led query optimization and performance tuning initiatives reducing data retrieval time by 30%.

Motilal Oswal Financial Services Limited — Intern (SQL)

Jul 2022 – Dec 2022

- Assisted in SQL-based data extraction, validation, and performance troubleshooting tasks.
- Prepared documentation and reports supporting data migration and business processes.

PROJECTS

PawSure – Pet Insurance Analytics

2025

- Developed an SQL ETL pipeline and KPI dashboards to detect claim cost leakages across cities and clinics.
- Improved operational transparency, enabling cost optimization in insurance claim settlements.

StreamWise – OTT Decision Fatigue Analytics

2025

- Analyzed user watch-time and scrolling patterns to detect decision fatigue and optimize recommendations.
- Proposed UX improvements that increased session engagement and content discovery rate.

SaaSGuard – SaaS Churn Early Warning System

2025

- Created SQL churn risk views and Excel dashboards to identify at-risk SaaS accounts.
- Predicted churn 30 days early, supporting retention teams with actionable insights.

EDUCATION

- **M.Sc., Information Technology** — Alagappa University — May 2024
- **B.Sc., Information Technology** — KG College of Arts and Science — 82.07% (2019–2022)
- **HSC & SSLC** — Sri Ramakrishna Mission Vidyalaya

CERTIFICATIONS

- Full Stack Developer Program — CCBP Tech 4.0
- SQL Foundations — Kaggle Learn (Self-Paced)
- New India Learnathon — ICT Academy
